

Manufacturing of technical rubber products

About us

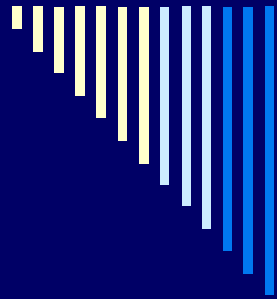

The company was first founded in 1981 with other partners. But later on, in 1986, it was completely bought by Mr. Péter Tóth. Today Nivex P+P Kft is in 50-50% the private property of two persons, Mr. Péter Tóth and his wife.

Since it became a family business it has been growing dynamically.

Products

Main products of NIVEX P+P : Shock absorber rubber parts, anti-vibration rubber parts, seals, lip seals, gaskets, O-rings, boots, bellows, grommets, membranes, closing covers and other moulded rubber parts.

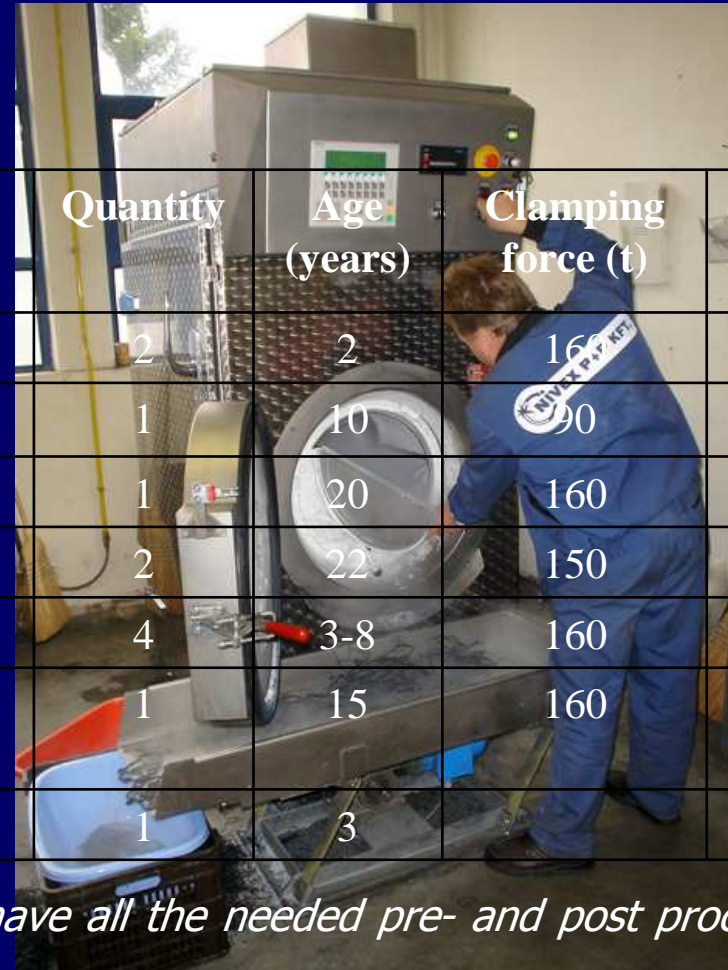

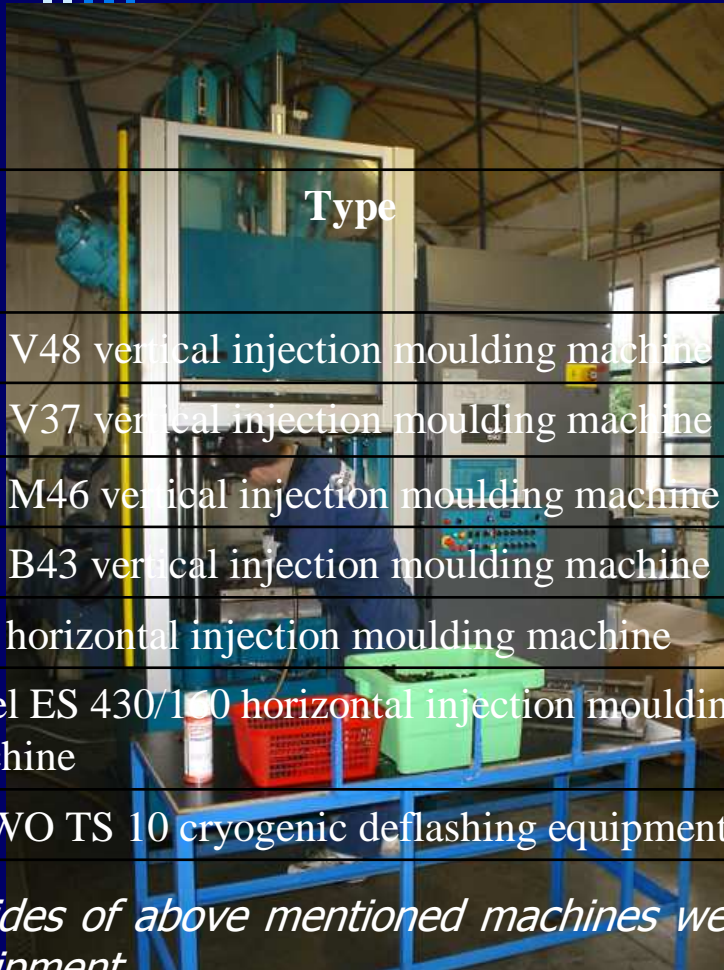

Tools

We have modern rubber injection and compression moulding machines in different sizes, tool-making machines and additional equipment (surface treating-, grinding-, shearing machines) which are used in the rubber industry. Further machines carry out the preparation of the raw material for vulcanisation presses.

Machine fleet

Type	Quantity	Age (years)	Clamping force (t)	Shifts
REP V48 vertical injection moulding machine	2	2	160	3
REP V37 vertical injection moulding machine	1	10	90	3
REP M46 vertical injection moulding machine	1	20	160	3
REP B43 vertical injection moulding machine	2	22	150	3
CsY horizontal injection moulding machine	4	3-8	160	3
Engel ES 430/100 horizontal injection moulding machine	1	15	160	3
MEWO TS 10 cryogenic deflashing equipment	1	3		3

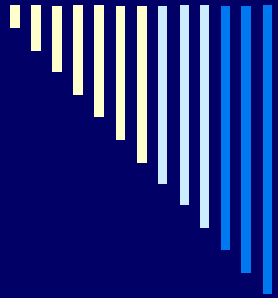

Besides of above mentioned machines we have all the needed pre- and post processing equipment.

Material quality

According to wide-range of requirements of our customers we process all kind of elastomers from simple caoutchouc to good oil, fuel, heat and weather resistant, acid, alkali proof mixtures in different quality and hardness such as : NR, NBR, SBR, CR, EPDM, HNBR, VMQ, FKM.

Material suppliers

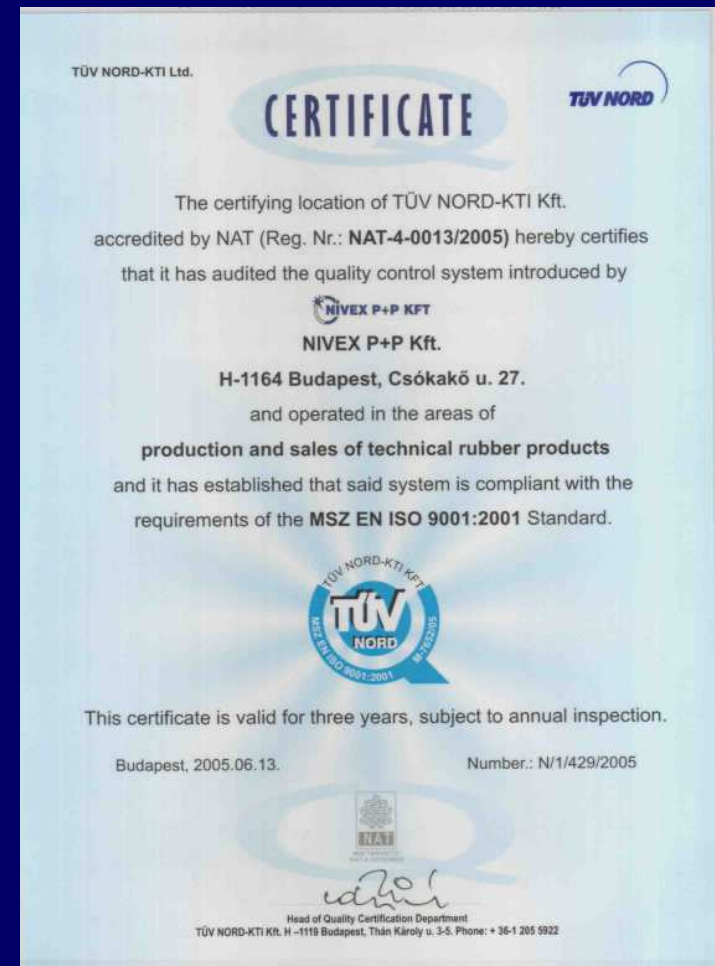

Our primary materials supplied by certified, internationally recognised, reliable, quality controlled Hungarian, German and Italian compounders.

Quality politics

For better perspicuity in business procedures and to assist effective managerial decisions our company introduced quality management system ISO 9001:2001. In 2005 we started the process to become registered to ISO/TS 16949:2002.
